

Petroleum Exhibition & Conference of Mexico
June 12 - 14, 2012 Parque Tabasco, Villahermosa, Tabasco, México

Drill into Mexico's Growing Energy Industry

The Mexican petroleum and power industries realize that they must explore new business opportunities to remain competitive and profitable in the complex world of energy resources. Indeed, Mexico has a window of opportunity to strengthen its position in the international energy marketplace. The 2012 Petroleum Exhibition and Conference of Mexico (PECOM) is your gateway to the industry.

Deadline for Abstract Submittal:

Proposed topics are listed but areas to be covered are not limited to the below criteria. To be considered, the presentation title, list of all authors, and all contact information should be included with your organization's submission. Papers must be of value to delegates and devoid of commercialism.

Please submit abstracts no later than January 15, 2012 by 5:00p.m CST.

2012 E&P Conference Topics:

Exploration: Geology of Mexico Fields, Geophysical Challenges & Opportunities, and Using G&G Technology with Drilling Operations & Reservoir Management, Offshore, Deepwater Developments

Drilling/Completion: Extended Reach, Directional Drilling, Deepwater Drilling, HP/HT, Drilling Optimization, Cost Reductions, Expandable Tubulars, Fluids, Real-time Control Room Drilling, Control Room Efficiencies, Safety Features, Rig Market Forecast (next 5-10 years), Market Economics, Rig Availability, Platform Safety & Security, Field Optimization, & Workovers, Infield Drilling, Mature Fields, Deepwater Drilling

Production Technology: Field Development, Reservoir Management, Technological Advances Installations, Sand Control & Well Maintenance, Pipelines

Health & Safety/Environmental: Emission reducing projects, Cutting Carbon, etc.

Renewable Energy: Utility Integration, Wind, Solar/PV, Hydro, Biomass / Biofuels, Geothermal, Renewable Portfolio Standards, Green Power Programs, Certification

Fuels: Coal, Natural, Gas, Fuel Oil, Supply/Pricing, Procurement, Hedging Strategies, Handling

Market Trends and Strategies: Global and Regional Markets, Industry Consolidation, Asset Acquisition Deregulation/Privatization, Energy Policy, Supply/Demand, Project Development, Risk Management Fuel and Power Pricing, Energy Trading, Project Finance, e-Business

If you are interested in submitting a paper, please contact Ray Vanegas, Conference Manager at 713.874-2207 or via email, rvanegas@oilonline.com.
